USB Quick Start

Plug cable in & use drivers included on CD.

- 1. The Windows "Detect New Hardware Wizard" will start
- 2. Choose "Install from a List or a specific location". Press "Next"
- 3. Choose "Search for the best driver in these locations in the search."
- 4. Choose "Include this location in the search." (Note: The default location is C:\Program Files\Metrologic Instruments\Optimus\USB Driver). -> Press "Next" (see Figure 1)
- 5. Press "Continue Anyway" at the "Hardware Installation Logo Testing warning"
- 6. Press Finish
- 7. The installer will run twice (Repeat steps 1-6).

Found New Hardware Wizard
Please choose your search and installation options.
Search for the best driver in these locations.
Use the check boxes below to limit or expand the default search, which includes local paths and removable media. The best driver found will be installed.
Search removable media (floppy, CD-ROM)
Include this location in the search:
am Files\Metrologic Instruments\Optimus\USB Driver Browse Browse
C Don't search. I will choose the driver to install.
Choose this option to select the device driver from a list. Windows does not guarantee that the driver you choose will be the best match for your hardware.

Figure 1

Setup Data_read.exe & check the COM port settings the USB cable installed.

- Open 'Device Manager'. Go to "Ports (COM & LPT). -> Shows up as a COM port (next avail #)
- 2. Change COM port on Data Read.exe to COM port in Device Manager
- 3. Use Cradle-IR (a.k.a. Serial-IR) as the communication settings on both the Optimus and in the application.
